

H.R. INSTITUTE OF SCIENCE & TECHNOLOGY (HRIST)

Recipient of Best Upcoming Institute award by ASSOCHAM
(Associated Chambers of Commerce & Industry of India)

Encouraged by the rapid developments in the corporate world and plethora of emerging technologies, The Harish Chandra Ram Kali Charitable Trust established HR Institute of Science & Technology, Ghaziabad, for graduate education in the field of Management & Computer Applications.

The Institute is located on the trust's sprawling campus spread over 25 acres on Delhi - Meerut Road within NCR. HR Institute of Science & Technology, Ghaziabad, was established fulfilling all the norms regarding academic, financial and social aspects set by the concerned statutory bodies. The courses run by institute are duly affiliated to C.C.S. University, Meerut.

FROM THE DIRECTOR'S DESK

Welcome to the family of HR Institute of Science & Technology, Ghaziabad which is working steadily towards shaping dreams of our student into reality and reaching new heights in education & research and thus opening up fast growth career opportunity.

Apart from quality education that we provide at HR Institute of Science & Technology, we are focused in programmes which have been modeled for personality development of our student. Members of faculty are assigned a group of students to ensure value addition in their life. Psychological and academic counseling is done on one to one level with the student and a track record is maintained for each of them. The same is discussed with their parents time to time.

Discipline is in the veins of HRISTIANS. We enforce strict discipline and habits to make our students successful in life. We are particular about time management and dress code.

Thus, our students can be expected to be professionally sound, dependable and self-disciplined individuals, who are nice to deal with and form good members of any team and society.

Prof. (Dr.) Rajeev Sijariya

M.Sc.(Physics), MBA (Marketing Management & Human Resources Mgmt.), Ph.D.(Consumer Behavior)

Director

development. The curriculum includes Solaris 10 Operating System, web Programming using Javascript, SQL Programming, Java Programming language, advanced Java programming for Web development, Project etc.

- (ii) Diploma/Certificate Course in .NET Technologies

This module is imparted in collaboration with leading service provider in the field and it equips the students with the technology software development. This curriculum includes: Web programming using Javascript, object oriented programming using .net, Developing GUI application using Vcnet designing database using SQL server, Project work etc.

Some of the live projects will also be assigned to the students under the supervision of senior and able faculty members.

TEACHING METHODOLOGY

The teaching strategy adopted for our programs is to promote multi-disciplinary approach and practical applications of concepts. Regular teaching involves lectures, tutorials, discussions, case studies, business games, role plays, simulated exercises, brainstorming sessions and many more activities. The emphasis is on interaction and participation rather than passive assimilation of knowledge. The students are encouraged to raise questions, for clarifying their concepts and discuss the issues.

To encourage team spirit and group working we assign current topics as projects to all our students. Such projects require the student to gather information from various sources like magazines, Internet and interaction with working professionals. This sharpens the student's abilities to solve real life problems and keep them updated in areas of their specialties.

Throughout the Academic calendar, due concern is given to guest lectures by eminent personalities in their fields as well as activities such as seminars, presentations and frequent group discussions on topics of relevance. Special emphasis is laid on use of power point presentation with the help of LCD Projector.

PD SESSIONS

Developing technical expertise in chosen field's speciality is a necessary commitment. Along with this, however, the significance of learning corporate etiquettes and developing personality through psychological training and communication skills cannot be underplayed. Keeping this view in mind, we organize specialized Personality Development Program for all our students to sharpen their personality traits, improve their presentation skills & groom them to become positive thinkers, proactive, successful professionals and useful members of society.

PRESENTATIONS

HRIST has a state-of-the-art computer labs equipped with latest application softwares such as ERP, SAP etc.. Students get full exposure to the computer lab for learning & practicing with the softwares available as well as solving the cases.

GUEST LECTURES

We invite exceptional achievers from the world of Management, IT and Computers to address our students, so that our students learn and understand what makes

people successful, from close quarters. Additionally, our guests interact with our students and faculty members, enhancing the visibility of our institute in the corporate world & provide us valuable inputs to update us on the latest practices & trends in industry.

CASE STUDY ANALYSIS

The Institute believes that case study analysis is a specific analytical tool to enhance the managerial abilities, that of comprehending and analyzing a real life problem and provide a reasonable action to resolve the problems. We also use techniques of simulation & professional games.

FOREIGN LANGUAGE

With the crashing of all national boundaries of trade, professionals may be required to work at any location in the world. To prepare a student for such contingencies & to add value to them for improving their employability, the Institute has provision to conduct certificate courses in German & French languages for basic & advance level.

PROJECTS

Students are given regular assignments, both individually and in groups, in order that students comprehend and understand theoretical concepts as well as imbibe the practice of working in teams. These assignments are related to 'Real Life Situations', so that there is continuous development of expertise in applications.

CO- CURRICULAR ACTIVITIES

The students at HRIST get ample opportunities to develop & nurture their talents & creativity. The Institute also encourages various cultural activities for the development of all-round integrated personalities of students and infusing leadership qualities.

The Institute organizes an annual cultural fest "NECTAR", the mood of "HRISTIANS" which enables the students to exercise their creativity, organizing ability and provides them a platform to showcase their talents. We also organize Techfest-Tech-Vaganza - an inter college talent competition every year.

CAREER COUNSELING

HRIST Counseling cell takes utmost care in ensuring student's progress from the moments he sets foot in the campus. HRIST has a robust and proactive Counseling cell that works in coordination with the students giving them directions and resources to acquire the necessary skills to secure dream jobs & career. The cell is dedicated to advice students on career options and providing the latest information on job options

available in the market. To maintain a competitive edge, the Counseling cell provides individual counseling concerning career choice, interview skills and group discussion skills, preparing resumes and drafting job applications.

In addition to providing a large number of opportunities for fast growth career we empower our students for preparing for competitive examination as bank PO, Banking, Railway, CAT and other important examinations. Special attention is given to develop students in the following areas:

Aptitude Building
General Awareness
Business Awareness
Logical Reasoning Ability
English Knowledge
Telephone Etiquette
Group Manners
Interview Skills
G.D. Skills
Time Management

Stress Management
Goal Setting
Team Work
Communication Skills
Etiquettes and Manners
Public Speaking
Self Motivation
Positive Attitude
Presentation Skills

INDUSTRIAL VISITS Panasonic Experience Center

An industrial visit was organized to PANASONIC EXPERIENCE CENTER, Gurgaon on February 25, 2013. It is a centre spread over a sprawling 20,000 sq. ft. in the heart of Gurgaon to display the latest technology and products. The Panasonic is contributing to the society by producing energy efficient eco-friendly electronic equipment. The students explored the latest products based on eco-friendly technology of Panasonic. The students were amazed by seeing the display of ultra-modern age products having world class technology advancement made for future. The students enjoyed the journey of Panasonic from very beginning to crossing over different milestones to become one of the giant players of the electronic world. They also gained knowledge about current R&D status and the products about to launch in future. About 120 students of MBA and BBA were present during this trip.

Source Soft Solution Pvt Ltd

An Industrial visit to an It company Source Soft Solution Pvt. Ltd. Noida was organized on 3rd April 2014 for MCA/BCA Students. The purpose of this trip was to make the students aware about the corporate culture as well as working of Software industry. The students were made aware about Software Development Life Cycle, Agile model of software development and famous technologies such as PHP. Students got the answers of their queries made about the working of Source Soft Solution and their projects handling strategies, the problem arising in delivery of projects is delivery on time. Students get energetic and enthusiastic after attending this visit.

MENTAL, PHYSICAL & SPIRITUAL GROOMING

The Institute has in-campus First-Aid facility to take care of the immediate health needs of the students. The Institute also has a Physician on its rolls to visit the HRIST campus as and when required. For physical, psychological & intellectual growth, the Institute encourages students to inculcate gymnasium habit. Meditation sessions are conducted under the able Trainers so that they may groom mentally & spiritually also.

COMPUTER LABS

HR Institute of Science & Technology has an excellent infrastructure for imparting software development skills to our students using the latest software development tools and technologies. It provides students with hands-on experience and learning in state of the art technologies. The Institute has well-equipped computer labs with more than 75 Pentium IV based computers with latest software and networked through Windows 2003 Server and Windows XP. We have 24-hour dedicated RF Link internet connection.

LECTURE HALLS

The Lecture Halls at HR Institute of Science & Technology provide the most conducive atmosphere for dynamic and focused discussions. These have been designed to bring together analysis with action and are augmented by well-equipped Teaching facilities as OHP and LCD projectors.

SPORTS FACILITIES

HR Institute of Science & Technology believes that "a healthy body bears a healthy mind". The Institute provides various sports facilities to the students and gives them a chance to choose from a wide range of sports like Football, Table Tennis, Basket Ball, Volley Ball, Cricket, Badminton, and Chess & Carrom.
